USER MANUAL

DRY TOP TECHNOLOGY

The dry-top system will block water from entering the mask as soon as you are completely underwater helping to keep you dry and comfy inside the mask. If you hate drinking saltwater, this is perfect for you ;)

180 DEGREE EXTRA WIDE LENS

See more with a larger 180 degree lens on your full face Snorkel mask. That means you can see more fish and cute mermaids.

DOUBLE AIR FLOW/ANTI-FOG CHANNEL

The air you inhale goes one way and takes a different path out. This helps to dramatically reduce and can even eliminate fogging entirely in water temperatures over 64 degrees.

EASY USE, EASY FOR TRAVEL

On top of being extra comfy to wear, it is easy to pack. The Snorkel tube can be detached from the base in order to help reduce the amount of space it takes up in your luggage!

DRAIN VALVE

Excellent for expelling any water drops that may enter the mask in between uses. Simply blow through your mouth and they will exit through the drain valve.

Clip the Snorkel tube on top of the mask. Fully loosen both sides of the straps so you may adjust later. Slip on the mask. Place the straps behind your head. The mask should press against your face with a tight comfy fit.

Adjust the straps to your desired tightness Watch everybody with regular gear be totally jealous of your awesome mask Make a movie star entrance into the ocean and enjoy ;)

Tips & Tricks

Make sure the silicone is on the base where the tube connects. This will ensure a secure fit and no leaks.

When you're assembling the breathing tube, you hear a "click" that means the tube is inserted into right place.

Assembling

Warnings

The Snorkel is meant to be used by confident swimmers. Whether it is an adult, teen or child using our product, please ensure you are comfortable swimming to ensure maximum safety. This is **NOT** meant to be used for free diving.

Optimal use is in water above 64 degrees fahrenheit (18 degrees celsius). Fogging might occur in colder water due to the contrast of temperature inside the mask versus outside.

You might lose track of time from all the fun you will have snorkeling :)

Size

XS (8.5cm-10cm)

If the distance from the bottom of your chin to your nose bridge between 3.35 inch(8.5cm) to 3.94 inch (10cm),this mask can fit you well.

PLEASE READ CAREFULLY

Snorkeling is an amazing experience. Millions of people snorkel every year without incident, and when done correctly, snorkeling is a safe activity. However, participating in the activity and the use of this product involves inherent risk of injury or death, which the participant assumes when engaging in the activity. These risks include but are not limited to:

1. Drowning: drowning is possible while snorkeling regardless of the equipment used. Most drownings occur in less than 3 feet of water.

2. Panic: Panic attacks while in the ocean are dangerous. If you feel a panic episode coming on, remove the mask and return to your boat or the shore immediately.

3. Aggravation of a Medical Condition: If you have pre-existing medical conditions, you may be at a higher risk. Small levels of CO₂ can buildup in the mask, which may cause headaches, a risk in blood pressure, blurry vision, hyperventilation or other breathing issues. Flush fresh air into the mask regularly.

4. Exposure to elements: the ocean or other bodies of water contain dangerous conditions such as rip tides, underwater obstacles, contact with dangerous animals, or other dangerous.

5. Not suitable for children under 3 years old.

6. Floatation device: use of floatation device can provide additional safety for users of all skills levels. However, be aware that use of this product in association with a floatation device can create a drowning risk if the user passes out while floating face-up while obstructing the snorkel tube. Always snorkel with a partner and have a safety check system in place.

Rinse mask with fresh tap water after each use

Do not use soap or detergents as they will reduce visibility

Use an eyeglass cloth or equally soft fabric to wipe lens. Do not use rough cloths or paper towels to dry the mask.

Do not leave the mask in direct sunlight when not in use, store in a shaded place to air dry

Do not press the mask against hard surfaces, place back inside the mesh bag after each use.

Tell your Snorkel you love it every night before it goes to sleep or else it will cry.

Thank You!

You are now part of group of super awesome snorkelers. Follow these basic instructions to ensure hours of hassle-free fun as you discover the oceans wonders from a whole new perspective! Enjoy!
