Safety Data Sheet

Multi-Purpose Polishing Cream

Version：V1.0.0.0
Report No.：XG26136235
Creation Date：2026/04/22
Revision Date：2026/04/22

***Prepared according to EU regulation No. 2020/878**

1 Identification of the substance/mixture and of the company/undertaking

|Product identifier

Product Name	Multi-Purpose Polishing Cream
Common Name/Trade Name	None
CAS No.	Not applicable
EC No.	Not applicable
Molecular Formula	Not applicable
REACH Registration Number	-
UFI	Not applicable

| Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses	Please consult the supplier.
Uses advised against	Please consult the supplier.

| Details of the supplier of the Safety Data Sheet

Name of the company	Huizhou Xinyizeng Technology Co.Ltd
Address of the company	No.1,Lane10,Jinlang Street,Xiaojinkou,Huicheng District,Huizhou city
Post code	-
Telephone number	13265116949
Fax number	-
E-mail address	529476801@qq.com

| Emergency telephone number

Emergency telephone number	-
Opening hours	24h

2 Hazards identification

|CLP classification according to Regulation (EC) No. 1272/2008

According to Regulation (EC) No 1272/2008 and its amendments. This product is not a hazardous substance or mixture.

| Label elements

Hazard pictograms	Not applicable.
Signal word	Not applicable.

Hotline:400-6788-333 www.cti-cert.com E-mail:info@cti-cert.com Complaint call:0755-33681700 Complaint E-mail:complaint@cti-cert.com

| Hazard statements

Hazard statements	Not applicable.

| Precautionary statements

◆ Prevention

Prevention	Not applicable.

◆ Response

Response	Not applicable.

◆ Storage

Storage	Not applicable.

◆ Disposal

Disposal	Not applicable.

| Other hazards

◆ Results of PBT and vPvB assessment

Results of PBT and vPvB assessment	Insufficient information, temporarily unable to evaluate.

◆ Results of endocrine disrupting properties assessment

Results of endocrine disrupting properties assessment	Insufficient information, temporarily unable to evaluate.

◆ Other

	Not applicable.

3 Composition/information on ingredients

| Substance/mixture

	Mixture

Component	Weight % content (or range)	Classification according to Regulation (EC) No. 1272/2008 [CLP]	Specific Conc. Limits, M-factors
Water CAS：7732-18-5 EC：231-791-2 Index No.：-	66.9	Not Classified	-
Glycerin CAS：56-81-5 EC：200-289-5 Index No.：-	20.0	Not Classified	-
Sodium Carboxymethyl Cellulose CAS：9004-32-4 EC：618-378-6 Index No.：-	4.5	Not classified	-

Hotline:400-6788-333 www.cti-cert.com E-mail:info@cti-cert.com Complaint call:0755-33681700 Complaint E-mail:complaint@cti-cert.com

Kaolin CAS：1332-58-7 EC：310-194-1 Index No.：-	7.0	Not Classified	-
Trisodium Citrate CAS：68-04-2 EC：200-675-3 Index No.：-	1.5	Not Classified	-
Propylene Glycol CAS：57-55-6 EC：200-338-0 Index No.：-	0.1	Not classified	-

4 First-aid measures

| Description of first aid measures

General advice	First aid measures are usually required. Please show this SDS to the doctor who arrives at the scene.
Eye contact	Quickly and gently wipe or brush off any residue on your face, separate the eyelids, and rinse your eyes with plenty of mild running water or salt water for 10 to 15 minutes. If you still feel unwell, please seek medical attention as soon as possible.
Skin contact	Remove contaminated clothes immediately. Wash your skin thoroughly with plenty of soapy water and warm water. If you feel unwell, seek medical attention.
Ingestion	Rinse your mouth with clean water. Do not induce vomiting. Seek medical attention immediately.
Inhalation	Move to a fresh air area, rest in a comfortable position, and seek medical attention if necessary.
Protecting of first-aiders	Ensure that medical staff understand the substances involved, take preventive measures to protect themselves and prevent the spread of contamination.

| Most important symptoms/effects, acute and delayed

1	Please refer to Part 11.

| Indication of any immediate medical attention and special treatment needed

1	Carry out targeted treatment based on the symptoms that appear.

5 Fire-fighting measures

|Extinguishing media

Suitable extinguishing media	Use spray water, alcohol-resistant foam, dry powder, or carbon dioxide for fire suppression.
Unsuitable extinguishing media	There are no restrictions on the types of fire extinguishing media.

| Specific hazards arising from the substance or mixture

1	In the event of a fire, smoke and other combustion products may be formed. Inhaling these combustion products can have a serious adverse effect on health.

| Advice for firefighters

1	In any fire, respiratory masks (compliant with MSHA/NIOSH requirements or equivalent) and full body protective clothing should be worn.
2	Extinguish the fire at a safe distance and with sufficient protection.

3	Prevent fire extinguishing water from contaminating surface water or the ground water system.

6 Accidental release measures

| Personal precautions, protective equipment and emergency procedures

1	Ensure adequate ventilation.
2	Use personal protective equipment. Avoid contact with skin and eyes.
3	Before the cleaning work is completed, personnel without protective equipment are not allowed to enter the leakage area.
4	Evacuate personnel quickly to a safe area, away from the leakage area and in the upwind direction.
5	It is prohibited to directly impact the leaked substance or source with water.

| Environmental precautions

1	Prevent further leakage or spillage if safe to do so.
2	Avoid discharging into the surrounding environment.

| Methods and materials for containment and cleaning up

1	Keep the leakage site well-ventilated.
2	Isolate contaminated areas and restrict access.
3	If the product is spilled on the ground, collect it promptly and store it in an appropriate sealed container for disposal.
4	Wear protective clothing, gloves, safety glasses and a dust respirator.

7 Handling and storage

| Precautions for safe handling

◆ Protective measures

1	Ensure good ventilation in the workplace.
2	Avoid contact with skin and entry into eyes, and avoid ingestion and inhalation.
3	Handle in accordance with good industrial hygiene and safety practices.
4	Do not eat, drink or smoke when using this product.
5	Keep away from heat sources, sparks, open flames and hot surfaces.

◆ Measures to prevent fire

1	Keep away from heat sources, sparks, open flames, and hot surfaces.

◆ Measures to prevent aerosol and dust generation

1	Strengthen ventilation to avoid aerosol formation.

◆ Advice on general occupational hygiene

1	Wash hands and face after using of the substances.
2	Replace the contaminated clothing immediately.

| Conditions for safe storage, including any incompatibilities

1	Keep containers tightly closed.
2	Keep containers in a dry, cool and well-ventilated place.

3	The storage area should be equipped with appropriate materials to contain spills.
4	Store away from incompatible materials and foodstuff containers.

| Specific end use(s)

1	In addition to use mentioned in the first parts, unforeseen other specific end uses.

8 Exposure controls/personal protection

|Control parameters

◆ **Occupational Exposure limit values**

Component	Country/Region	Occupational exposure limit (8h)		Occupational exposure limit (short-term)	
		ppm	mg/m³	ppm	mg/m³
Kaolin	Australia	-	10	-	-
	Belgium	-	2	-	-
	Denmark	-	2	-	4
	Singapore	-	2	-	-
	Switzerland	-	3	-	-

◆ Biological limit values

Biological limit values	No relevant regulations.

◆ Monitoring methods

1	EN 14042 Workplace atmospheres. Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents.
2	GBZ/T 300.1~GBZ/T 300.160-2017; GBZ/T 300.161~GBZ/T 300.164-2018 Determination of toxic substances in workplace air (Series standard).

◆ Derived No effect level (DNEL)

Component	Route of exposure	DNEL for Workers			
		Acute effects (local)	Acute effects(systemic)	Chronic effects(local)	Chronic effects(systemic)
All components	Inhalation	No data available	No data available	No data available	No data available
	Oral	No data available	No data available	No data available	No data available
	Dermal	No data available	No data available	No data available	No data available

◆ Predicted No Effect Concentration (PNEC)

Predicted No Effect Concentration (PNEC)	No information available.

| Engineering controls

1	Ensure that eyewash stations and safety showers are close to the workstation location.
2	Handle in accordance with good industrial hygiene and safety practice.

| Personal protection equipment

General requirement	There are no special requirements. Please refer to the description below.
Eye protection	Under normal circumstances, eye protection is not required. However, if exposed to steam/dust during the production process, chemical goggles should be worn.
Hand protection	Hand protection is usually not required.
Respiratory protection	Under normal circumstances, respiratory protection is not required. However, if the concentration of vapor/dust exceeds the occupational exposure limit or symptoms such as irritation occur, wear a dust mask or gas mask.
Skin and body protection	Under normal circumstances, no skin or body protection is required.

9 Physical and chemical properties and safety characteristics

| Physical and chemical properties

Physical state	White pasty fluid
Odor	Odorless
Odor threshold	No information available
pH	No information available
Melting point/freezing point(°C)	No information available
Initial boiling point and boiling range(°C)	No information available
Flash point(Closed cup,°C)	>100
Evaporation rate	No information available
Flammability	Non flammable
Upper/lower explosive limits[%(v/v)]	Upper limit：No information available; Lower limit：No information available
Vapor pressure	No information available
Vapor density(Air = 1)	No information available
Relative density(Water=1)	No information available
Solubility	Soluble in water
n-octanol/water partition coefficient	No information available
Auto-ignition temperature(°C)	No information available
Decomposition temperature(°C)	No information available
Viscosity	No information available
Explosive properties	No information available
Oxidizing properties	No information available
Particle characteristics	Not applicable

10 Stability and reactivity

| Stability and reactivity

Reactivity	There are no known hazardous reactions under normal usage conditions.
Chemical stability	Stable under proper operation and storage conditions.
Possibility of hazardous reactions	There is no further relevant information available.

Conditions to avoid	There is no further relevant information available.
Incompatible materials	Strong acids,strong oxidizing agents.
Hazardous decomposition products	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11 Toxicological information

|Acute toxicity

Component	LD_{50}(oral)	LD_{50}(dermal)	LC_{50}(inhalation,4h)
Glycerin	12600 mg/kg(Rat)	> 10000 mg/kg(Rabbit)	No information available
Sodium Carboxymethyl Cellulose	27000 mg/kg(Rat)	> 2000 mg/kg(Rabbit)	No information available
Propylene Glycol	20000 mg/kg(Rat)	20800 mg/kg(Rabbit)	No information available

|Carcinogenicity

Component	List of carcinogens by the IARC Monographs	Report on Carcinogens by NTP
Water	Not Listed	Not Listed
Glycerin	Not Listed	Not Listed
Sodium Carboxymethyl Cellulose	Not Listed	Not Listed
Kaolin	Not Listed	Not Listed
Trisodium Citrate	Not Listed	Not Listed
Propylene Glycol	Not Listed	Not Listed

|Endocrine disrupting properties

Endocrine disrupting properties	Insufficient information, temporarily unable to evaluate.

| Others

Multi-Purpose Polishing Cream	
Skin corrosion/irritation	Based on available data, the classification criteria are not met
Serious eye damage/irritation	Based on available data, the classification criteria are not met
Skin sensitization	Based on available data, the classification criteria are not met
Respiratory sensitization	Based on available data, the classification criteria are not met
Reproductive toxicity	Based on available data, the classification criteria are not met
STOT-single exposure	Based on available data, the classification criteria are not met
STOT-repeated exposure	Based on available data, the classification criteria are not met
Aspiration hazard	Based on available data, the classification criteria are not met
Germ cell mutagenicity	Based on available data, the classification criteria are not met
Reproductive toxicity(additional)	Based on available data, the classification criteria are not met

12 Ecological information

Hotline:400-6788-333 www.cti-cert.com E-mail:info@cti-cert.com Complaint call:0755-33681700 Complaint E-mail:complaint@cti-cert.com

| Acute aquatic toxicity

Acute aquatic toxicity	No information available.

| Chronic aquatic toxicity

Chronic aquatic toxicity	No information available.

| Persistence and degradability

Persistence and degradability	No information available.

| Bioaccumulative potential

Bioaccumulative potential	No information available.

| Mobility in soil

Mobility in soil	No information available.

|Results of PBT and vPvB assessment

Results of PBT and vPvB assessment	Insufficient information, temporarily unable to evaluate.

|Endocrine disrupting properties

Endocrine disrupting properties	Insufficient information, temporarily unable to evaluate.

13 Disposal considerations

|Disposal considerations

Waste chemicals	Before disposal should refer to the relevant national and local laws and regulation.
Contaminated packaging	Containers may still present chemical hazard when empty. Keep away from hot and ignition source of fire. Return to supplier for recycling if possible.
Disposal recommendations	Refer to section waste chemicals and contaminated packaging.

14 Transport information

| Label and Mark

Transporting Label	Not applicable.

| IMDG-CODE(IMDG Code, 42-24 Edition)

IMDG-CODE	NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS.

| IATA-DGR (IATA DGR 67th Edition)

IATA-DGR	NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS.

| UN-ADR (UN ADR 2025 Edition)

UN-ADR	NOT REGULATED FOR TRANSPORT OF DANGEROUS GOODS.
